

Undergraduate Exchange Program

The Exchange Program is open to undergraduate students regularly **enrolled in their 2nd year** of a Bocconi Bachelor Degree. Students will be able to attend a single term at one of the foreign universities **during their 3rd year**, after passing a selection, and just during the academic year the selection is related to.

The participation in the Exchange Program allows students to add one point to their final (degree) grade, by recognising at least one exam passed at the foreign university.

**** For more details, please refer to the Guide to the Exchange Program below****
